## Annual Report for the Year of 2009

SUPPORT is service oriented voluntary Organization working for the Development of Downtrodden community. We are conducted the Health, Environment, Education and Social development activities. We are mainly focusing on Bio diversity, environment, Health to women and child. Now we are conducted the activities for the Year of 2009.

### Environment Awareness:

The present Environment Education status is very bad and dangerous conditions. The Climate change is more because of bad environment conditions. The Natural Resources is destroying by the people on the name of the development and industrialization. Now the people are facing environment related Health problems because of polluted climate. We are conducting the awareness programme on Bio diversity, water saving, solid waste Management and Climate change. Lack of the awareness the people neglecting the environment protection and promotion activities. We conducted plantation to promote the good environment to convert the waste land into greenery by plantation. We distributed the dust bins to collect the household waste and using to vermin compost production.

## **Climate change:**

The Environment conditions badly changes because of polluted climate and environment pollution. Lack of sufficient natural Resources there is no possibilities to purify the polluted climate by naturally. We are conducted the programme to protected the Environment condition and promote the good climate conditions by implementation of the plantation, Bio diversity, Production of vermin compost and promotion of ground

level water by water harvesting. We are conducted the Plants distribution and vermin compost pit construction activities in the last Year.

## **Health Activities:**

The village people is facing Health problem lack of proper Health education and not accessible the Health services. The most of the village are located very faraway from the Health centre. In the emergency time the people facing the lot of Health problems. We are conducted the Health Education Trainings to the women on Personal Hugging, child care, ANC & PNC mother care. We are also conducted the mass Health camps and provided the Health services to the Poorest of the Poor. And also conducting the seasonal disease likes Chicken Guinea and Swen Flu and Brain fever and A vitamin tabs Distribution to children's.

**Mr. Gade venta Reddy -Ministry of Devadaya and Registration Inaugurating Swine Flue Camping**

### **Women Rights Activities:**

Women are treating the secondary person in the family and society. It so they have not rights and freedom in the family. Because of she is the depended on the men in every where. Lack of proper knowledge on women rights they are above all the decision of the family members. Now we conducted the workshop and meeting to the women on women rights and different G.O of women welfare and women protection aspects. The women are come out from the houses and taking the decision for the welfare of family and themselves also after attended the Trainings. Most of the

**Village level meeting of women groups**

### **Child Right Programme:**

Children are become child labour by the parents negligence and they are away from the school. Most of children of the backward communities they are out of school and involved in the works. We are identified the children under the child rights Act we are put the case on the owner and joined the children in the school. We conducted the workshops and meeting on child Rights. The children are Right to live, Right to development, Right to participation, Rights to education. This four rights give by

women are doesn't know about their rights and facilities so they are become depended on the other family member like husband, brother, father.

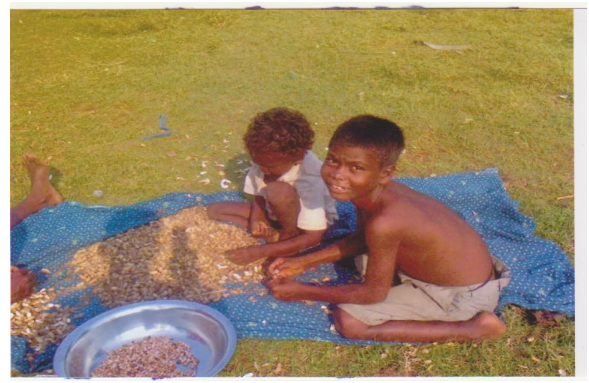

**Mandal level meetings**

constitute to the children. If any body violet this they should be punished. This massage brings to the parents, owner and other public and asked to protect the child rights.

**Street children**

### **HIV/AIDS Rehabilitation and Nutrition support Activities:**

HIV/AIDS is present one of the burring problem in through out world. Because only prevention no quire. So all should afraid about this disease and thinking how to reducing this severity in the world. But people are not able to discover the medicine to this disease. Only the prevention and awareness is method to reduce the severity of HIV/AIDS. We are conducted the awareness to women, youth, Adolescent Girls, Panchayath Raj Members and Anganwadi teachers. This people are much related with people who are suffering with Health and educational, Economical problem.

So they create the awareness on these subjects. Most of the Youth are ended their life in the early ages like 28-30 by this disease. We are conducted the Rallies, workshops, trainings and Public meeting on HIV/AIDS. We are established the condom box at public places and give the awareness on preventive methods of HIV/AIDS.

### **Adolescent Girl Welfare Activities:**

In the present day the adolescent girl are trapping by the youth people on the name of the love and they are become the prostitutes and other illegal sectors. In the Towns these types of the activities are going on. We will give the motivation to the adolescent girl about how trapping the girls and them

trafficking the people. In village some of aunties entered with costly customs and high styles discussing with the girl and attracting to take over the towns. We are conducted the awareness cum motivation meeting to the adolescent girl and give the hints how to tackle this type of person and if by mystic

facing any trafficking how to escape from them with local police people.

### **Vocation Training:**

The youth and women are required the skill trainings to use their valuable time with production and other skill development activities. Most of women are wasting their leaser time lack of skill and self employment skills. So we are conducted the Tailoring and embroidery Trainings to the women and Electronic and Electrical trainings with the help of CASA and other agencies. We provided the trainings 8 women and 25 youth in the skill training. Before that they are not any income lack of work. Now they are getting the daily income

with attending the works in the house warring and other repairing works. The women are getting the Rupees 60-70/- getting as daily income with tailoring and embroidery works. This becomes good income sources and self employments.

### **Tribal and Dalit Empowerment:**

In the society Tribal and Dalit communities are not able to get the get the any welfare and development activities lack of accessible from the government. We are conducted the meeting and workshop for the empowerment of the Dalit and Minorities community. Lack of Education and other knowledge about the government scheme they are not

get the development activities. We are mobilised small industries and petty business loans to 8 members in Tribal and 5 members in Dalit community.

### **Water and Sanitation:**

We are facing more health problem in any where because of the water pollution. For bad health water is main cause. Most of health problems belonging contaminated water and polluted the environment. In the poor communities are not using the Toilet the are malpractice the open defecation so it create more water pollution and their not good sanitation system in the our working areas. We are creating awareness on water and sanitation importance of the individual Toilets. We are lobbying with the Government

mobilized the funds under NREGS and constructed the Toilets. We are also conduct the water purification and sanitation system. We are supply the chlorination and bleaching to make the water and sanitation.

### **Crèche units:**

In the rural village the mother are attending the work in this time the children are facing the problem in the house lack of care takers. When the mother attending the works in this time the children need the some body help to take care the children. The Mothers are giving this responsibility to elder girl child. Because of this duty the girl child education is disturbed. So for this under five children care taking responsibility purpose we are started the Crèche units in the village. We are running the crèche centre and provide the care taking service to under five children.

## Crèche Units

### **Disaster Management and Relief:**

Disaster is two types on Natural Disaster and Man Made disaster. The people are losing their property and life losses in Disasters. Lack of proper training and prevention methods the people are badly affected by the disaster. We are conducted the Disaster Mitigation trainings and first aids Techniques to the people to reduce the life and property losses during the cyclones and floods and other Man made disasters. In the costal village is frequently facing the

disasters.

### **SHG Group promotion and strengthen:**

The women are forming the groups but not running in proper way lack of the leadership and fiancé management.

We are conduct the Training to the women groups on Leadership qualities, Accountability and transference in the

group activities. We are also promoting the new groups in the ST communities to development economical status. Through this programmes we mobilized funds from the government and improve the economical status of the women.

### **Education Development Activities:**

In rural area the people are not given the more importance to the education. They are send the children to the works, the children become the child labours. Especially the girls are more out of school. Because of they are given the more preference to boy than the Girl child more gender inequality in the rural areas in education. So we are conducted the special education awareness and providing the books and scholarship to merit and poor students.

### **Old age Welfare Activities:**

In the present day there is not elder and honouring and other matter in the society. So the children are not taking the much care about their parents. The elder people are become destitute lack of proper response from the children. Most of the elders are out side of the house there is not respect and response from the children. We are conducting the programme to the older who are not able to get the love and affection

occasional we are conduct the welfare activities like community gathering, arrangements of meals to Elders, Distribution of Cloth and conduct the Health camps to aged People, we are conducted the Cloth Distribution to the old person during the occasions . And we are also conduct the blanket and rice distribution to the older in festivals

and other national functions.

**Cloths Distribution to Older**

### **Youth Sangam Strengthen:**

Youth is back bon of the country, we need more human resources to for development activities. Lack of proper guidance the youth are going wrong track. Now we are conduct Training proper utilization youth power and knowledge in development activities. We are forming the village level youth sangams and give the skill trainings and other trainings to improve their skills.

### **Women Empowerment:**

Women should become the self suitability by getting the by the rights. The Indian constitution given the more right to the women, but in implementation there is no improvement. We are creating the awareness about the women and other facilities to improve the women status in the society. We are bringing the pressers on the government for proper implementation of women rights and women empowerment activities.
